new

The 801 series is part of the ProGuard Classic family of protective eyewear which provides traditional lens and frame variations that never go out of style. This line is designed to provide excellent durability and protection while sticking to the essential elements of protective eyewear. These lenses are utilitarian and ensure compliance across a broad range of activities.

Impact is proud to announce the 801 Series.

- Single Lens and adjustable temples ensure reliable performance.
- Lenses are hard coated for superior scratch resistance.
- Ratchet adjustable temples.
- Private labeling available.
